

PRIVACY POLICY

Information Obtained Through Contact Forms

We take security and confidentiality very seriously. In an effort to protect the information you provide us electronically from the IPRP website, we utilize Secure Sockets Layer (SSL) technology with 256 bit encryption. If your browser supports SSL (most current browsers do), it will automatically encrypt the information you provide via the contact forms on the secure pages on our site, before sending it over the Internet. IPRP, its web developer, web hosting organization, and other third parties are not responsible for data breaches nor do they guarantee the security of any data submitted through the IPRP website.. If you are concerned with data security, please call us to fill out the admission form over the phone or via mail.

IPRP has also obtained a digital SSL certificate to for encrypted communication.

To authenticate the security of your connection before submitting any of your personal information, you can double click on the icon to display our digital certificate.

Some browser versions and some firewalls do not permit communication through secure servers. In that case, we suggest that you contact us by phone or mail.

Externally Linked Sites

IPRP is not responsible for the content of externally linked sites. It is the sole responsibility of the web user to adhere to the privacy policy of externally linked sites. External links are provided as an added convenience, and the inclusion of any link does not imply IPRP's endorsement of that content.
